

# QUICK START GUIDE

## 4.3 inch FacialTime Attendance Terminal

### Safety Precautions

Before installation, please read the following safety precautions for user safety and to prevent product damage.

- Do not install the device in a place subject to direct sun light, humidity, dust or soot.
- Do not place magnet near the device. Magnetic objects such as magnet, CRT, TV, monitor or speaker may damage the device.
- Do not place the device next to heating equipment.
- Do not let liquid like water, drinks or chemicals leak inside the device.
- Do not let children touch the device without supervision.
- Do not drop or damage the device.
- Do not disassemble, repair or alter the device.
- Do not use the device for any purpose other than those specified.
- Clean the device often to remove dust on it. While cleaning, do not splash water on the device but wipe it out with smooth cloth or towel.

Contact your supplier in case of a problem!

### User Registration

1) Recommended Standing Position

For user heights between 1.5m to 1.8m, it is recommended to install the device at 1.15m height above ground (may be modified according to user average height).

a. Recommended Registration and Verification Position

Recommended Procedures (as shown in the left image): During registration and verification procedures, the position of device should not be changed to prevent reduction in verification preciseness. If it is necessary to move the device, its vertical height should not be changed.
